Digital certification services

Safe Stamper Signature

The simplest form of electronic signature of documents: contracts, collaboration agreements, purchase orders, internal requests, etc.

Safe Stamper Mail

The simplest way to certify the sending of emails: date and time, content, attachments and recipients. Just add **certificate@stamper.com** as cc o cco.

Safe Stamper Notify

To send notifications from Safe Stamper and **certify if the recipients have accessed the message**, on what date and time, how many times, from what IP addresses and if they have downloaded any attachments.

Mail and Notify are recommended services for sending invoices, original works, claims, summons, etc.

Safe Stamper File

To generate proof of the existence of electronic content at any given time.

The electronic evidence generated includes **four cryptographic fingerprints and the electronic signature with qualified time stamp**.

Recommended in copyright protection and disclosure of secrets.

Safe Stamper Web

Credit the content of a website at a specific time.

- **Static pages:** Certified PDF that incorporates embedded HTML code including invisible tags or metadata.
- **Navigation:** certified video with the recording of a browsing session, in addition to a certified PDF with screenshots.

Ideal for pages that require identification to access the content

Safe Stamper App

Application to take certified photos, audios and videos using mobile devices. The certification includes the **exact date and time**, as well as the **geolocation coordinates** of the device.

Recommended for car crashes, domestic abuse, plagiarism, claims, property damage, etc.
